Andrew Wylde

▬▬ Core Skills

Experienced	JavaScript, Node
Intermediate	Python, Scala, Linux Servers & Administration
Frameworks	Angular, Backbone/Marionette, Koa, Express, Scalatra

▬▬ Experience

2017–Present   **Software Engineer**, McGraw-Hill Education, Boston.
Construct customer-facing web applications with reporting & analytics data visualizations.
Detailed achievements:
- Scala (Scalatra) API development for transitioning multiple platforms onto a single service
- Node server (Koa) & API management for large-scale platform usage
- Angular(JS/2+) apps built on modular architecture for use across departments
- Development of shareable components for company-wide Angular apps (3k employees)
- Interactive data visualizations for variable-resolution data

2015–2017   **Software Engineer - Cloud Applications**, Starry, Boston.
Detailed achievements:
- Implemented back-end analytics-gathering for internal metrics (10M rpm).
- Developed Cordova mobile app (Hapi, Backbone/Marionette, MongoDB).

▬▬ Projects

(WIP)   **Sprawler**, *(React/Node/PostgreSQL)*.
RPG character tracker based on The Sprawl

Bostonshire, *(Node/Hapi/Angular/MongoDB)*.
Custom web application for Boston-wide scavenger hunt event

codelemur.com, *(HTML/JS)*.
Minimalist personal site (Ghost for blog section)

▬▬ Education

2015   **Web Development Immersive**, *General Assembly*, Boston, MA.

2012   **B.A. of Political Science**, *Saint Olaf College*, Northfield, MN.

Somerville, MA, USA
